- Tue-Sat: 9am-9pm

Ole Henriksen is a skin-care OG. Every treatment at this Danish legend's spa includes a full consultation, extractions if you want/need them, lymphatic-drainage massage, supremely relaxing sound wave therapy, and custom-blended essential oils. Powerful skin energizers like chaga mushroom, bioactive peat enzymes linked to collagen support, and omega-packed serums are incorporated into many, and we recommend the Healing Jade Treatment as an add-on to any facial: The ancient Chinese facial massage tool feels spectacular and cooling as it glides over your skin.
